THE EXPERIENCE

This year, the Nations Dinner takes place on the river.

We invite you to enjoy a unique experience cruising along the Guadalquivir River. During this two-hour journey, you will discover Seville from a privileged perspective, taking in some of the city's most iconic illuminated landmarks while sharing an unforgettable evening with rowers and accompanying guests from different countries.

More than just a dinner, this is a unique experience designed to create lasting memories and enjoy the international atmosphere that makes our regatta so special.

FLAVOURS OF SPAIN

You will be able to enjoy one of the most representative products of our gastronomy, "Pata Negra Iberian Ham", hand-carved by a master ham slicer, who will prepare and serve it in full view of everyone to be enjoyed during the cruise. In this way, you will discover firsthand one of Spain's most appreciated culinary traditions.

The experience will be completed with a selection of appetizers and an open bar of wine, beer, and soft drinks throughout the journey...

...Because discovering Seville is also discovering its flavours.
